Society & Social Justice · GS - II

Discuss how targeted educational assistance can protect students from the socioeconomic effects of drought and other natural disasters. Suggest measures to ensure continuity of education during such crises.

EXAM YEAR	PAPER	SUBJECT
DAILY PRACTICE 20/10/2026	GS - II	Society & Social Justice

MARKS	WORD LIMIT
10	~150 words

Answer Hint

Educational equity, social justice, household income loss, fee waivers, scholarships, disaster resilience, vulnerable students, digital divide, targeted welfare, institutional coordination.

Model Answer

Introduction

Drought affects livelihoods, particularly in agriculture-dependent households. The resulting financial stress can make it difficult for families to pay examination fees, purchase learning materials and meet other educational expenses.

Role of Educational Assistance

1. **Reducing financial barriers:** Fee waivers and scholarships can prevent immediate economic hardship from interrupting students' education.

2. **Promoting equity:** Targeted assistance supports students from vulnerable households and helps reduce disparities in educational access.

3. **Preventing dropouts:** Timely relief enables students to continue their studies despite temporary income losses.

Measures for Educational Continuity

- Identify affected students through transparent eligibility criteria and local verification.
- Provide timely fee waivers, scholarships and emergency educational grants.
- Strengthen school and college counselling to identify students at risk of dropping out.
- Maintain access to learning materials, digital resources and flexible academic arrangements where necessary.
- Coordinate education departments with disaster-management authorities and local administrations.
- Monitor beneficiaries to assess whether assistance improves attendance, retention and completion rates.

Conclusion

Disaster relief should protect not only immediate livelihoods but also long-term human development. Timely and targeted educational support can prevent temporary crises from becoming lasting barriers to opportunity.
